

Icing Images

Directions for Edible Lace:

1. Peel off Icing Images Edible Fabric Sheet from its backing.

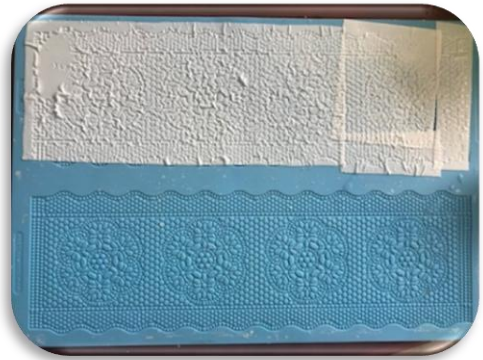

2. Cut the fabric sheet to cover the size of the mat. If your piece is not large enough to cover the entire mat, pieces can be used to fill in the needed area.

3. Dip the Fabric sheet in room temperature water. Cover the front and back of the fabric sheet with water dipping several times for about 30 seconds.

4. Lay on top of lace mat. Let sit for 2 minutes.

5. Using a spreading tool, spread and press the edible fabric in to the crevices of the mat.

6. Wipe excess off mat.

7. Allow to dry for 2 hours. A dehydrator or warm oven can be used for quicker drying

8. Once set carefully peel the edible fabric lace out of the mat. The thinner the lace the more careful you need to be.

You will find the lace to be very durable once removed.
